MEMORANDUM FOR : Acting Chief, Development Projects Division
THROUGH : Director of Administration
SUBJECT : NSA Clearances

25X1A 1. In view of the NSA responsibilities described by [redacted] in the attachment and the senior nature of the Scientific Advisory Committee, I feel the Committee should have full access to our unique "take," but as suggested by Mr. Bissell their requirement can be well handled within the "T" system. It would be natural for NSA to sponsor the "T" clearances for such an advisory group, and I think this can be easily arranged with NSA through the fine liaison of Mr. Heber.

2. In view of the above, it would be inappropriate for us to initiate a DFD Security review of the individuals forming the Committee. FYI. I have listed below those members of the Panel who are cleared and what phase clearance they have. In regard to the three NSA personnel who meet with the Panel regularly, they are not cleared.
